

Blokart Hire Agreement.

The hire of equipment can only take place if you have taken at least section one of the “Fast Track Blokart Sailing” scheme that is run in the UK. This is the standard 2 hour training session. You will require your certification from the center that you gained your training if it was not here in Cornwall at the National Blokart center.

The hire of equipment is for a session up to 2 hours long and at a recognized sailing area.

You will be supplied with a Blokart and a suitable size sail for the session. You will be offered additional equipment if you do not have your own. This will be a crash helmet. You will need to supply your own gloves and safety glasses. Please ensure that all of this equipment is looked after during your session and returned at the end of the sailing period.

If sailing at the airfield you will be responsible for paying the runway fee to the airfield owners at the café as you enter the area. The cost of this is £5 per session.

The hire of the equipment for the session at any venue is £30 per person.

As this equipment is of hire value and damage may occur you will be asked to pay for any damage at cost price. You will be responsible for the full cost of the repairs or replacement parts at cost price.

You are not expected to cover wear and tear. This will be only on tires at the airfield or on any rope items.
